### WINEMAKING

White wine made from Verdejo grape variety. After a gentle pressing run juice is obtained. The fermentation takes place in stainless steel tanks at controlled temperatures, which facilitates the removal and retention of primary flavors, fruits and flowers, typical of the variety.

### VINTAGE / HARVEST DESCRIPTION

The harvest in Rueda began the night of September 4 and ended on October 24. The 2016 harvest has been marked by excellent quality and record figures in production due to the excellent state of health of the grape and its correct ripening. The harvest has been very quiet and has been done selectively following the parameters of quality. Fresh, structured wines with a strong personality are expected.

### TASTING NOTE

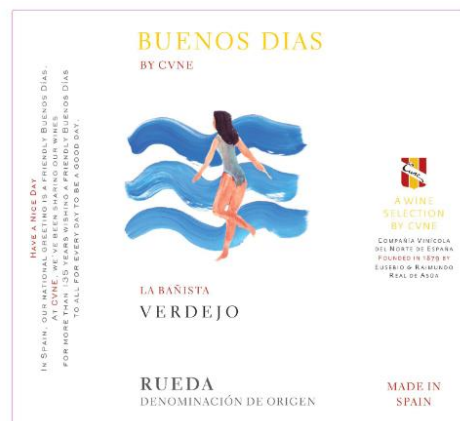

Attractive pale yellow color with greenish hints. High aromatic intensity where we find very interesting aromas: herbaceous as boxwood or fennel and fruity as pineapple, mango or peach. All of them make this wine very varietal. On palate we discover a youthful and cheerful wine, with untentiousity and given by that point of acidity and bitterness so pleasant that provides us the green variety. The long and balsamic aftertaste makes it a perfect companion for several occasions: alone in appetizers or with seafood, fish and even with exotic sauces. Recommended service temperatura 6 to 10°C.
